“ Danny was a very rare person and good friend. I remember many days in Scarborough that we spent together in our youth. Even though we are literally half a world away now, Soheila and I will miss him dearly.

“ Danny and I went to elementary and high school together and swam for many years at the Scarborough Olympian and Scarborough Swim club. He was one of the reasons I went into competitive swimming and he was always a great friend. I chose him to be one of my groomsmen because we shared so many good times together growing up. He will be missed dearly.

“ I played my first round of golf ever with Danny at Dentonia Park Golf Course in Scarborough when I was 12 years old. Danny was such a funny, caring and genuine guy. We grew up together and myself and the entire Conron family are deeply saddened to hear the news of his passing. Wishing love and strength to everyone affected.
