“ He was my Bantam B hockey coach in the mid seventies. I was a shy and awkward teenager then. I was the only french player on the team, coach Morgan gave me confidence in my self. A great coach but mostly a great man. Thank you for everything, i will always remember your kindness. Alain Ouellet.

“ Dear Grandpa,I was very sad to hear that you passed away. I was convinced nothing could stop you from getting to 100 years and receiving your letter from the Queen. I always enjoyed our phone calls, however long or short they were, you were always happy to tell me about your day and hear what I was up to. I want to thank you for all of the good memories I have with you and Grandma at the cottage like going boating, going to fenelon falls, eating at Just for the Hallibut and our adventure taking the boat to lake Simcoe. I definitely got my sea legs from you, thanks for that. I miss you very muchLove Garrett

“ Aspa and I were very sorry to hear of George\u2019s passing. Uncle George has always been part of my life. I recall early memories of happy family gatherings, such as Christmas, and touring his Shell garage. He took me to Alouette football games and stock car races, special times with George. Later on, Aspa and I enjoyed spending time with him and Myrna. George always loved to cook whether on the bbq or baking his cherry cakes. Going to their lake house was always fun particularly when Captain George took us for tours on his boat. Memories we will always have. His positive attitude was a quality we always admired. We are thankful we were able to spend time with him in Peterborough last August. George will be missed! Brian and Aspa

“ Last time we all saw each other was in August. A family visit of short duration but of monumental importance with things now being what they are. Last time we spoke was when George was admitted to the hospital to get rid of that nagging cough that plagued him for weeks. He borrowed Stephen cell phone to call me and said" Nothing to be concerned about Sonny Boy , a week here and I will be back at St. Joe working on my paintings."I believed it to be so because Dad always had a positive outlook. Life was never given to George on a silver platter. He had to work weekends and 2 jobs to keep us feed and clothed. Apparently he acquired the nickname of Diamond Jim because he was always well dressed. My Dad always found the good deals on the best clothes while living here in Montreal. Cant blame a guy for finding a good deal and not taking advantage of the opportunity. That still remains in the family .Always a positive spin on things. Never the life of the party, but a great person to have at a party or family gathering. A traveler of certain kinds but never worldly Susan and I were blessed to have taken Dad on 2 cruises together. One of which Dad got to fulfill one of his life long dreams to ride the Monorail at Walt Disney World in Florida. I so pleased we did that together. Always of a Pleasant demeanor, didn't complain as he said what was the use of complaining, doesn't change anything or make it better. So often when we called he would answer "Danny's Bar, Danny Speaking." Always a polite joker. That all ended abruptly on Monday. I know he fought with everything he had left. However, no short moment was given to Father, Wife , Son and family to say goodbye. That is what will always hurt the most. Love you Dad.
