“ I recall Gisele and her closest sister, Muriel, babysitting me and my siblings in Ottawa. She would often visit from her home in Alexandria where she stayed with grandpa after most of the other children had left. We often visited the house during summer break. The house was large (16 kids lived there over the years), had no indoor plumbing, and had a wood stove for cooking and heat. Outside was a kid\u2019s paradise - endless fields, farm animals, creeks and Dairy Queen! Gisele and Muriel always welcomed us with open arms and took great care of us. Those memories will always warm my heart.
