“ Pam,I was shocked and deeply saddened to learn this week of Hans' recent passing. Last Hans and I talked via email, he seemed to be doing okay, and I was looking forward to another visit after our return from our trip to Florida in March. Hans was a true gentleman, a "gentle giant", with a keen sense of humour. He was an extremely talented man, especially displayed through his love of model railroads. I only wish that I had met him earlier in life so that we could have spent more time together. I feel for you and what you have endured over these many months. If there is anything that I can do to help, please let me know. David Messervey.

“ Hi Pam, also via this possibility I share my grief with you and understand you need time to process what happened. We shared so many years (mostly in distance) but also together here, and memorize what we did and the fun it gave doing things together. We felt soo sorry with the bad messages about his health, these months we kept the worries in our minds, until this final message. Now our concern is you: wishing you the strenght you'll need. from Holland with love,,Nico&Nelly
