“ One of my favourite teachers during my time at PECL back in the 80's. Firm but always fair with a great sense of humour is how I remember him. He called things as he saw them, and never put up with much from the students. If you paid attention, you learned many "life lessons" from Mr King. Sorry to hear of his passing, but happy to have crossed paths with him along the journey. All the best to the family.

“ Mr. King was my homeroom teacher for environmental science in grade 9 in 1974. He was always ready to listen without judging, and he had a gentle sense of humour. He made a difference in my life, and I am sure he affected the course of a lot of other lives over his lengthy career. I am sorry for your family's loss.
