“ I've just learned of this news about my childhood best friend, I grew up with Jason public school and highschool, a lot of great times and some very mischievous times as well. During our Crestwood days we would get off our respective school busses after commuting from Millbrook to Peterborough just to turn around and hitchhike back to Millbrook and skip school for the day hanging out at his dad's place listening to music and what not. Sorry Mr. Hamelinck for the troubles we caused while we were navigating are rebellious teen years. He'll always have a place in my heart and some darn good memories and great times. Rest easy now good buddy. My deepest condolences to the hamelinck family, Jim and Shelley, Amanda and Laura sending you love and hugs. And of course everyone else that knew Jason (chunk)
