

Ralph Frederick

December 4, 1947 - November 24, 2024

FREDERICK, Ralph

1947-2024

Ralph lost his battle with dementia which ravaged his mind and body in three short years. Ralph was a professor, teaching electronics at Fleming College for over 25 years then moved over to the electronics shop at Trent University, where he so loved working with the guys in the shop and fixing all of the strange electronics for the professors. As they said, "there was nothing he couldn't fix". Ralph was an amateur radio operator for over 50 years, which allowed him to stay connected to family in Winnipeg and in New Zealand. His hobby of Radio Control (RC) devices took him from cars, to boats, then moving into the love of flying his planes and helicopters, as well as drones. He loved camping, boating, and riding motorcycles and walking his dog, Banks. He leaves behind his beloved wife Reta of 44 years, two sons Richard (Jacky) and Kristopher. His granddaughter Hailey and two grandsons Mason and Ryker. His big brother Gilbert of Winnipeg and many nieces and nephews. We are so thankful to all the staff at Riverview and the GAB unit at PRHC for their loving care and kindness. At Ralph's request there will be no service. To leave condolences please visit his Book of Memories at www.communityalternative.ca

“ Reta, Rick and Frederick family, my sincere condolences for the loss of Ralph. He was an incredible man, I have many wonderful memories from the Frederick home growing up, Ralph's influence was everywhere in the hobbies he encouraged ranging from tech, computers, metal work, RC airplanes, to go-carts. He was always a very kind and generous man. I will forever be able to recall his booming voice on the Frederick home voicemail. With love and deepest sympathy, Dave North & North Family

JA

“ Very sorry for your loss, Reta! Jerry Allen

Jerry Allen - November 28, 2024 at 07:18 PM

RH

“ I was notified by family Friend, Jerry Woodhouse, of Ralph's passing and was asked to notify the Young's Point Radio Control Flying Club membership of his passing. Richard Hagg - President YPRCFCHi everyone received a call from Jerry Woodhouse, former YPRCFC member, yesterday informing me that Ralph Frederick, co-founder of YPRCFC, enthusiastic hobbyist and long time friend to so many YPRCFC members, passed away on Sunday after a period of declining health. Ralph was part of a small group of rc flyers who co-founded the club in May of 1995. I first met Ralph in 2017-2018 when I became club president and found him to be very engaging and supportive. Ralph was very generous with his time, helping people with their equipment set up, offering advice and was one of the club flight instructors for many years. He was always ready to share a story or two, and enjoyed the social aspect of meeting and talking with members at the field. The Executive, on behalf of the club members, wishes to express our sincere condolences to Ralph's family. He will be missed.

RL

“ Dear Reta, together with all in your immediate and extended family, "a limb has fallen from the Frederick family tree, that says grieve not for me. Remember the best times, the laughter, the love, the good life I lived while I was strong." All we have said and done during our journey leaves its trace. It is apparent Mr. Frederick lived a life of purpose; a productive and fulfilling life. May good memories last a life time for all those left behind. Reta, I am sorry to learn of your loss.
