“ Sue was a force of nature! She could be forthright and ruffle feathers but that was our Sue! She looked life right in the eye and took it straight on. She was also a caring helpful person to anyone that needed it. My abiding memory was bald Sue walking down Kent Street with her tiger transfer on her head as much as to say "there cancer, take that!" My condolences to her family. As with most people, there was more to Sue than was apparent. Kind and courageous. Les Campey

“ Condolences to Sue's family. We remember Sue with her big smile & when she was fighting cancer in Lindsay at the time, she had lost her hair & placed tattoos around her head...she had so much courage & faith. Always so jolly with all her battles. I met a lady from Lindsay when I was out walking the other day & she said Sue helped so many cancer patients. Thank you, Sue. R.I.P. Ted & Joan Hutton.

“ We'd like to share the short story that follows from the beginning of our relationship with Susie: Back in August 1956, we first met the Cook family. Immediately, an affinity bond has been established. An everlasting friendship between our families ensued, especially between Suzie's mother who we affectionately called Cookie, and our mother Doris. Susie often came to our home to watch TV and took care of us children, walking the twins, Donald and Ronald in their carriage, playing with Ricky and Garnet, and helped out with the baby Louise. This was a great help, since our father, Tom, in the military, was often away from home. Her kindness and big heart enlightened our childhood. During the four years living in Montreal, our companionship has never been altered. Despite our many moves from town to town, the distance, and the rare opportunities to visit, we always kept a close contact. When she joined our family, we all felt she was one of us, as she did. We are grateful having the privilege of knowing her. Proof: sixty years after living away from each other, the bond was never broken. Courteous and elegant, she gratified us with her positive energy, despite her serious health problems. Susie was a model of perseverance and courage. We are saddened to learn of the loss of a loved one. We deeply share your pain in these difficult times. We will regret the loss of all the precious moments we could have shared, but will remember the joys of all the crossroads spent together. Champagne family

“ I met Sue 30 years ago in Bobcaygeon and she was quite a character. She could not speak without lots of arm and hands going as fast as she could talked which endeared me to her right away. She moved to Lindsay and I saw her more as she and I belonged to the same group. She was so very kind and helpful and always available if you needed her. My Mom loved her and they always greeted with warm hugs. She had so many battles with cancer which she handled with her usual humour. At one stage, after losing her hair due to chemotherapy, she bought tattoos and stuck them to her bald head . This seemed to help so many people especially kids accept what was happening to them and gave them some respite from the pain and anxiety. She made the most out of what life had to offer and faced adversity with courage and humour. I will miss her.
